Sales by Auction (Control) Order 1942, Second Schedule, Part II, Goods service (Price Control) Act, 1941, Maximum Prices Order. The attention of buyers purchasing goods (including second-hand goods) for re-sale in the course of their business is directed to the above-mentioned Act, and to Maximum Prices Orders made thereunder.

Conditions of Sale.

- 1.—The highest bidder shall be the buyer, The Auctioneers reserve the right of regulating the biddings; of rejecting any bid; and of bidding for, withdrawing, consolidating, dividing or altering the order of lots.
- 2.—The purchase money for each lot shall be paid at the fall of the hammer (if required). Each lot at the fall of the hammer shall be at the sole risk and expense of the buyer, and shall be paid for and removed immediately after the conclusion of the sale, **but no lot shall become the property of the buyer, or be removable until paid for**, and if taken away in contravention of these conditions without an order for removal signed by the Auctioneers, they shall have power to seize the same by their servants or agents, or otherwise, or the Auctioneers may recover either the lot sold or the price thereof (at their option) by action at law.
- 3.—No contra account of any description whatever will be allowed to the buyer as a set off, and payment for each Lot shall be made to the Auctioneers or their clerk only in cash or bank notes. No cheque will be accepted unless arrangements have been made with the Auctioneers prior to sale.
- 4.—For all purposes of this sale the Clerk of the Auctioneers shall be deemed to be the Agent of both seller and buyer.
- 5.—A bidder shall not be allowed to retract his bidding, and he shall give up his full name and address if required. The Auctioneers will not recognise the transfer of any lot from one buyer to another, nor make any alteration in the sale book in respect thereof.
- 6.—The Auctioneers are acting only as Agents, and have no personal knowledge as to the correctness or otherwise of the description of the Property offered for sale, and give no personal warranty as to the health, condition, quality, genuineness, authenticity, or otherwise; each lot is therefore sold with all defects and errors of description, if any. The purchaser is deemed to have inspected the lot he buys, and if he buys without previous inspection he shall be deemed to have done so at his own risk.
- 7.—If any buyer neglect or refuse to comply with the above conditions or any of them, his deposit money (if any) shall be forfeited, and the lot uncleared may, at the option of the Auctioneers, be resold without notice by public auction or private contract, and any loss occasioned by such re-sale together with all expenses attendant thereon, or arising under these conditions shall be paid for by the defaulter at this sale and be recoverable as and for liquidated damages. This condition is however without prejudice to the right of the Auctioneers to enforce the contract made at this sale if they think fit.
- 8.—The Auctioneers shall be the sole Arbitrators in all matters of dispute relating to these conditions, both as between the seller and the buyer and between the several bidders and buyers and their determination on all matters shall be final and binding on all parties concerned.
- 9.—Neither the vendor nor the Auctioneers will be responsible for any accident or damage to life or limb which may occur prior to or during the progress of the sale or at any time during the removal of the Lots.
